Fibrebond - Education

LUNCH TIME LECTURE :

Title: Practical applications of fibre reinforced composites in general practice

This lecture is presented by Dr JJJ Van Rensburg and is intended as an introduction to the exciting possibilities of fibre-reinforced composite dentistry- 'fibredontics'

Although materials science and clinical research will be touched upon, the emphasis of the lecture will be very much on the practical applications of fibredontics in situations encountered by dentists every day in general practice. Actual clinical cases will be presented throughout by means of illustration of all techniques discussed.

All Members of staff are welcome.

FIBRES COULD BE ORDERED ONLINE, QUICK AND EASY!!

SPECIAL OFFERS!!

The special offers on the products will be extended. Please visit www.fibrebond.co.uk/products Please order online—it is quick and easy !!

Dentists attending this lecture will learn how fibredontics may be employed in direct fabrication of bridges and posts, periodontal splints and as a superior alternative to Maryland bridges. Applications using indirect laboratory- manufactured restorations will also be discussed.

It will be seen that the techniques described are minimally invasive, aesthetically pleasing, patient-friendly and, above all, highly cost-effective.

This lecture is normally presented during the lunch time break. This is an ideal opportunity for the whole team to earn 1 hour of verifiable CPD. To book Dr Van Rensburg for a lecture like this please reply to the email and a date could be scheduled. A hands-on course at the practice or another venue could also be arranged. Please visit www.fibrebond.co.uk for more information.
